RALPH WILSON® CUSTOM LAMINATE INDIE COLLECTION

From photorealistic imagery to abstract and artistic, the Indie Collection offers a wide range of patterns exclusive to Wilsonart. Choose from a library of designs that have already been perfected for the Custom Laminate process. Designs from the Indie Collection require no minimum order, which means you can order as little as a single sheet. However, because we print and manufacture each sheet based on your needs, additional lead times do apply. For a complete listing of designs from the Indie Collection, product availability, care and maintenance, as well as warranty information, please visit www.decorlam.com.mx

Ralph Wilson Indie Collection High-Pressure Laminate is suitable for use on fine quality residential and contract countertops, work surfaces, furniture and casework and for architectural application on columns, wainscoting, valances, cornices, interior doors and divider systems.

PRODUCT TYPES

Indie Collection Laminate is available in the following two product types:

GENERAL PURPOSE (HGS) 174 is most frequently used for work surfaces on counters, islands, vanities, desks and tables. Typical vertical uses include surfacing for wall panels, teller cages and the front panels of workstations, such as those in hospitals, airports and restaurants.

VERTICAL SURFACE (VGP) 364 is intended for vertical applications where a functional, durable, decorative surface must absorb somewhat less impact than a comparable horizontal surface. It often appears on the vertical surfaces of cabinet walls, doors and drawer panels, desks, restaurant booths and maître d' stations and as architectural cladding.

FINISHES

Indie Collection Laminate is available in most finishes. Please see www.decorlam.com.mx for more details.
